Paper Development Workshop

14 December, 2023 (IIM Nagpur Campus)

About the Workshop

IIM Nagpur is organizing a face-to-face Paper Development Workshop (PDW) at its campus on December 14, 2023. This workshop is designed as a precursor to the IFIP WG8.6 Conference and offers a unique opportunity for participants to engage in in-depth discussions with esteemed journal Editors. By attending the PDW, scholars will receive comprehensive feedback on their manuscripts, aiding in their preparation for journal submission. While attendance does not guarantee publication, the workshop aims to provide valuable guidance and direction to enhance the quality of scholars' initial work, thereby increasing its chances of being published. The following editors have graciously agreed to join the PDW and share their expertise.

Prof. Yogesh K. Dwivedi
Swansea University, UK
Editor-in-Chief, International Journal of Information Management
(https://www.sciencedirect.com/journal/international-journal-of-information-management)

Prof. Robert "Glenn" Richey Jr.
Auburn University, USA
Co- Editor-in-Chief, Journal of Business Logistics
(https://onlinelibrary.wiley.com/journal/21581592)

Professor Steven Carnovale,
Florida Atlantic University College of Business, USA
Co- Editor-in-Chief, Journal of Purchasing and Supply Management
(https://www.sciencedirect.com/journal/journal-of-purchasing-and-supply-management)

Who Should Apply?

Early and Advanced Research Scholars

Academicians

Industry Professionals

Submission Guidelines: We strongly encourage authors to submit an extended abstract of a manuscript that is currently unpublished but holds potential for further development during the workshop. The extended abstract should provide a clear overview of the paper's objective, identify research gaps and questions, outline the theoretical foundation, and summarize the research methodology employed. This submission will serve as the basis for discussion and refinement during the workshop.
