

IIM NAGPUR

**"BE LIKE A RIVER.
BE OPEN. FLOW"**

We are living in a world that is *FLUID*-everything is dynamic and changing. Markets and economies are changing at an unprecedented rate. Moreover, the disruptive technologies are becoming mainstream at a faster pace than ever. Furthermore, the data-driven competence is emerging to be dominant as we evolve from the industrial era to the intelligence era.

Therefore, agile and responsive strategies are critical to be at the top in this dynamically changing global scenario.

The organizations are operating in a changing business context where the *Future* is fluid. The *Leadership* styles required to manage *Uncertain* business context are fluid. Subsequently, the *Intellectual* capital is bound to be an agile workforce and is therefore fluid. Finally, due to digital disruptions the success of a business would be determined by fluidness of the *Digital* strategy.

The business challenges that resulted from current disruptions are only indicators of the fluidness of the business world. Responding quickly to change has become more crucial irrespective of size, market, or position.

It is of critical importance for practitioners and academicians to acknowledge the transient business systems. Because acknowledging the Fluid nature of business would be a stepping stone to unravel various aspects of "Leading Business in a FLUID World."

The fluidness is not limited to one functional area of the management; rather, it has a wider implication for all management areas. The broad-scope impact of fluidness in business has led us to design multiple interdisciplinary sub-themes.

About Host Institute

Indian Institute of Management (IIM) Nagpur

Indian Institute of Management Nagpur started its journey in 2015. Since then, IIM Nagpur is growing steadily. IIM Nagpur is moving to its state-of-the-art campus spread across 135 acres at MIHAN, Nagpur.

IIM Nagpur, a new generation IIM, aims to create value-driven leaders, global managers, and entrepreneurs with strong conceptual foundations and analytical approaches to help them be the best in whichever field they choose. The aim is to innovatively address modern India's needs and connect aspirations and realities to attain benchmarks that are recognized internationally. IIM Nagpur is gradually increasing its portfolio of activities to fulfill these objectives.

The institute's curriculum has been designed by experts from the field of management education. The learning process here helps the students connect to the industry and other stakeholders in a multidimensional way.

About ISDSI-Global

International Society for Data Sciences and Innovation - Global (ISDSI-Global), is an independent Not-for-Profit professional consortium of institutions, corporate and individuals across disciplines from academia and practice. Headquartered in Hyderabad, India, this global body is devoted to the mission of promoting data sciences, innovation and entrepreneurship through creating forums for intellectual deliberations, supporting action research and facilitating development & application of the advance data sciences, digital technologies and management practices. ISDSI-Global is patronised by best of academicians, acclaimed researchers and champion institution builders from across the world. The twin objectives of ISDSI-Global are to play a catalyzing role in promoting academic excellence and bridge the divide between theory and practice by propagating, facilitating and sponsoring action research.

ISDSI-Global, shall be working through its nodal offices spread over six continents bringing together the best from academia as well as industry. ISDSI-G shall be engaging in several activities ranging from periodic workshops for professional development, series of expert discourses, panel discussions, to annual conferences.
