NEW DELHI- Indian Institute of Management (IIM) Nagpur has collaborated with Jaro Education (one of India's leading EdTech companies) introduces 4 techno-functional postgraduate (PG) programmes to enhance the functional and technical skills of working professionals. IIM Nagpur has released a press release on May 19 in which they mentioned about this techno-functional PG programme. In the released press release, IIM Nagpur quoted "The techno-functional PG programmes are apt for mid-level working professionals in key business functions such as Business Management, Information Technology, Marketing and Financial Technologies". IIM Nagpur claims that the techno-functional programmes will furnish working professionals with future-ready skills and with the knowledge focused on functional and technical expertise.

IIM Nagpur techno-functional programmes

Business Management for IT Professionals (BMIT)	FinTech Programme
Data Science for Business Excellence and Innovation	Digital Strategy and Marketing Analytics

These programmes are the duration of 9 to 12 months and comprise a total of 16 modules under the experience and professional faculty of IIM Nagpur. On completion of course, candidates will receive a postgraduate certificate and an alumni status from IIM Nagpur.
