NEW DELHI: Realizing the need for management professionals to be equipped with skills and practical know-how that are at par with the global standards, Indian Institutes of Managements (IIMs) have launched various management programmes for freshers and working professionals. Here is the list of all new courses at IIMs.

IIM Nagpur- PG certificate program in Data Science

The Indian Institute of Management (IIM) Nagpur has announced the start of the Post Graduate (PG) certificate programme in Data Science for Business Excellence and Innovation. The Data Science certificate programme's time duration ranges from 9 to 12 months.

Candidates should have completed their bachelor's degree in any discipline with minimum 50 percent marks in total aggregate or its equivalent from a recognized university.
